

# How to Import Photoshop Actions

## **1. Open the “Actions” panel in Photoshop:**

- Go to Window > Actions or click the triangle “Play” button in the toolbar to the right of your screen.

## **2. Load your Action(s) into the panel:**

- Click the hamburger menu at the top right of the Actions Panel, then select “Load Actions...”

## **3. Select your Action file:**

- Select your Action (.atn) file from your computer to import it into the Actions Panel.

## **4. Choose your action and click “Play”:**

- Select the layer you’d like to affect, then select the Action you’d like to use, then click the triangle “Play” button at the bottom center of the Actions Panel!
